

# Different lakes, different policies

## Proud Partners

# “Catchments at Risk”

## RPS – catchments at risk

- 💧 Lakes Rotorua, Rotoiti, Rotoehu, Ōkaro, Ōkāreka, Rotomā, Ōkātina, **Rotomā**, Ōkātina, **Tarawera**, Tikitapu, Rotokakahi, Rerewhakaaitu and Rotomahana, requires BOPRC to
- 💧 establish contaminant limits within each catchment to achieve each lakes TLI
- 💧 require consent for increased discharges
- 💧 allocate capacity to assimilate contaminants within limits
- 💧 manage nutrient reductions in excess of limits

# Lake Rotoma

# Lake Tarawera

# Strategic planning

- 💧 What should an ideal information gathering framework look like?
  - 💧 Baseline information?
  - 💧 Accounting for social, economic, environmental and cultural wellbeing
  - 💧 Tailoring for the lake characteristics
